CRAB MISSION

The mission of the Washington State County Road Administration Board (CRAB) is to preserve and enhance the transportation infrastructure of Washington Counties by providing standards of good practice, fair administration of funding programs, visionary leadership, and integrated, progressive, and professional technical services.

RCW 36.78.070 (4) Advise counties on issues relating to county roads and the safe and efficient movement of people and goods over county roads and assist counties in developing uniform and efficient transportation-related information technology resources;

MAP-21

MAP-21 included requirements for the collection of roadway data based on the Model Inventory of Roadway Elements (MIRE) and the use of a linear referencing system (LRS). Subset of MIRE established as part of the HSIP Final Rule changes to 23 CFR Part 924. The FDEs are a recommended set of 37 roadway and traffic elements that include roadway segment, intersection, and ramp/ interchange data that are needed to conduct enhanced safety analyses

MIRE

The law required the Secretary of the U.S. Department of Transportation (DOT) to establish a subset of MIRE that is useful for the inventory of roadway safety and to ensure that States adopt and use the subset to improve data collection [23 U.S.C. 148(f)(2)]. FHWA established a subset of MIRE as part of the Highway Safety Improvement Program (HSIP) Final Rule changes to 23 CFR Part 924, effective April 14, 2016.

To meet HSIP U.S. 23 CFR 924, which notes that a state DOT should have access to a complete collection of roadway and traffic data for all public roads by September 2026,

Asset Management

Definition from the International Infrastructure Manual (IIMM)

- The combination of management, financial, economic, engineering and other practices applied to physical assets with the objective of providing the required level of service in the most cost-effective manner

CRAB's Goals

- Establish and maintain a **uniform system** of bridge and roadway maintenance categories, and associated costs.

ASSESSMENT

- What do I own?
 - Where is it?
 - What condition is in and what is the performance?
 - What is the remaining useful life?
 - What is its remaining economic value?
- 

➤ Work Management

- Service Request
- Work Order
- Resource Management

➤ Strategic Asset Management

- Condition
 - Risk Analysis
 - Budget Analysis
- 
- A series of white diagonal lines of varying lengths and thicknesses, located in the bottom right corner of the slide, extending from the right edge towards the center.

VUEWORKS SOLUTION OVERVIEW

- Forecast capital budget needs
- Create & manage capital projects
- Analyze different tactics using “what-if” scenarios

Plan Management

Forecasts

Projects

Risk

- Track condition, depreciation & value
- Analyze & prioritize consequences of failure

Risk-Based Asset Management

Reporting

Citizen Request Portal

Request Management

Service Requests

- Document & track requests for action
- External or internal

Work Orders

Personnel

Work Management

Equipment

- Create & track work orders
- Manage time & expenses for labor & equipment
- Manage quantity, expenses & location for inventory

Valuation

Condition

Inventory

Handling the life-cycle of assets

Strategic Asset Management

- Track condition, depreciation & value
- Prioritize consequences of failure
- Forecast capital budget needs
- Create & manage capital projects

Work Management

- Document & track citizen issues
- Create & track work orders
- Manage time & expenses for labor & equipment
- Manage quantity & expenses for inventory

Map & Data Sharing

- Web browser based
- View maps and data
- Manage users
- Search & report
- Display & manage layers
- List and edit attributes
- Link documents & data
- Manage facilities

VUEWORKS SOLUTION OVERVIEW

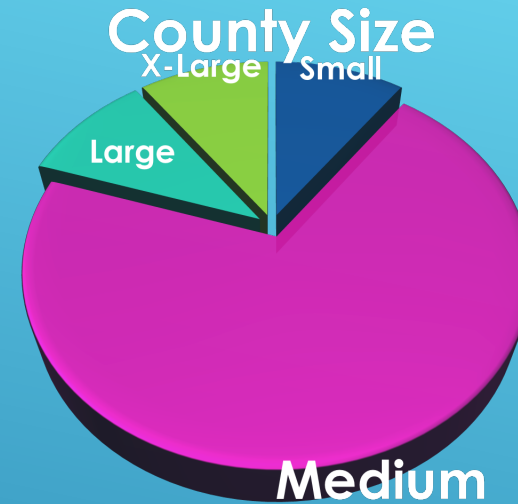

COUNTY ROAD ASSETS

- 40k miles of county roads
- 120k culverts
- 4694 NBI & SS bridges (Non-NBI)
- 2000 miles of guardrail
- 300k Sign Posts
- Street Lights, Traffic Signals, Storm Systems, Curb Ramps, etc.

Asset quantities are estimates only!

PARTNERS

- All 39 Counties
- Stakeholder Steering Committee & Workgroups
- WSAC Funding \$125k
- WTSC Funding \$400k
- WSACE, WSDOT, FHWA, OCIO

INTEROPERABILITY (COUNTY SYSTEMS, WSDOT, ETC)

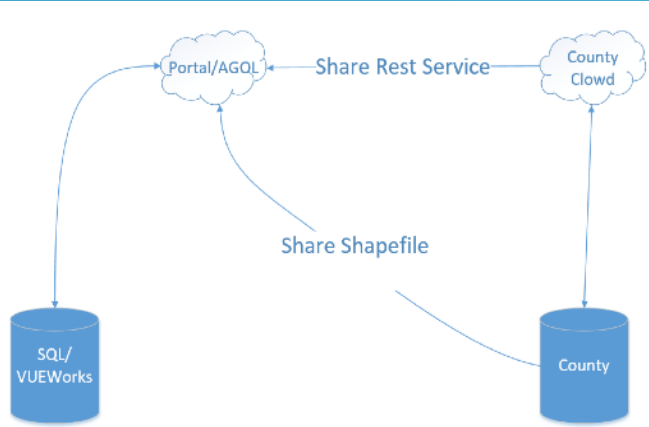

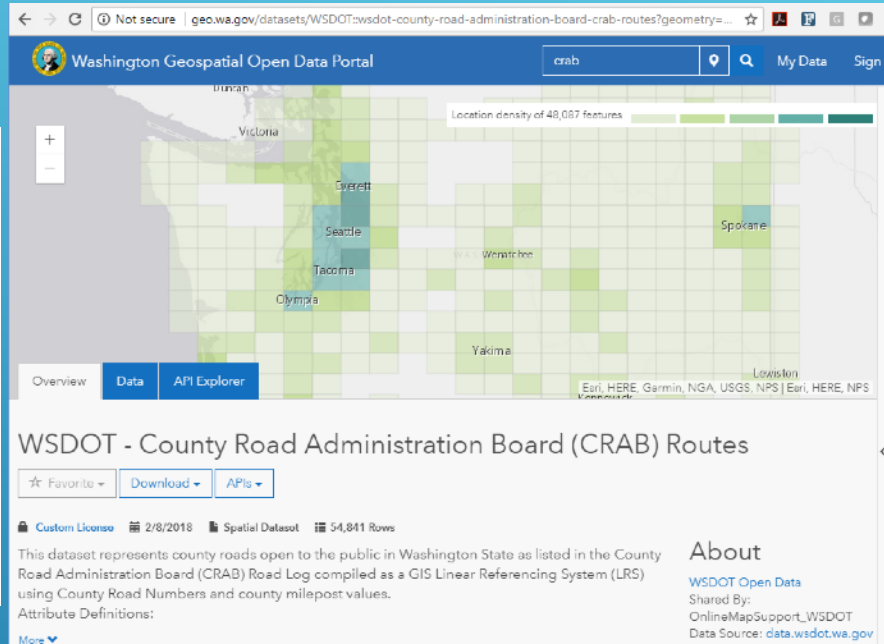

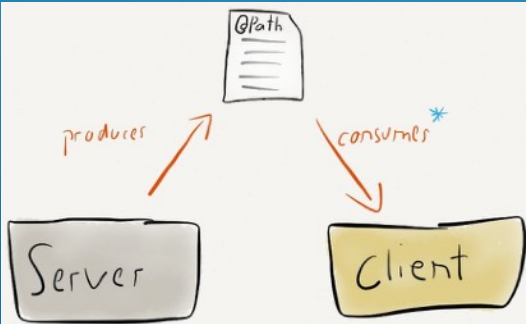

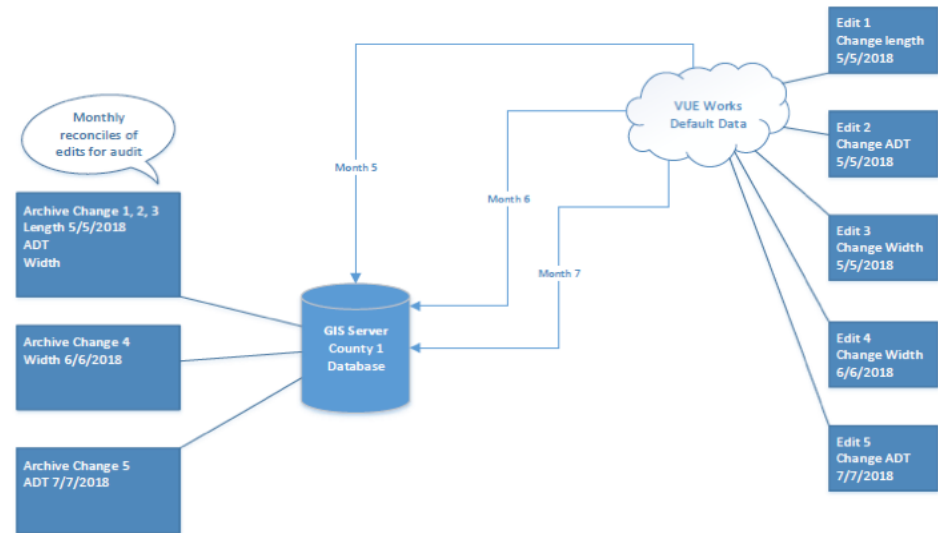

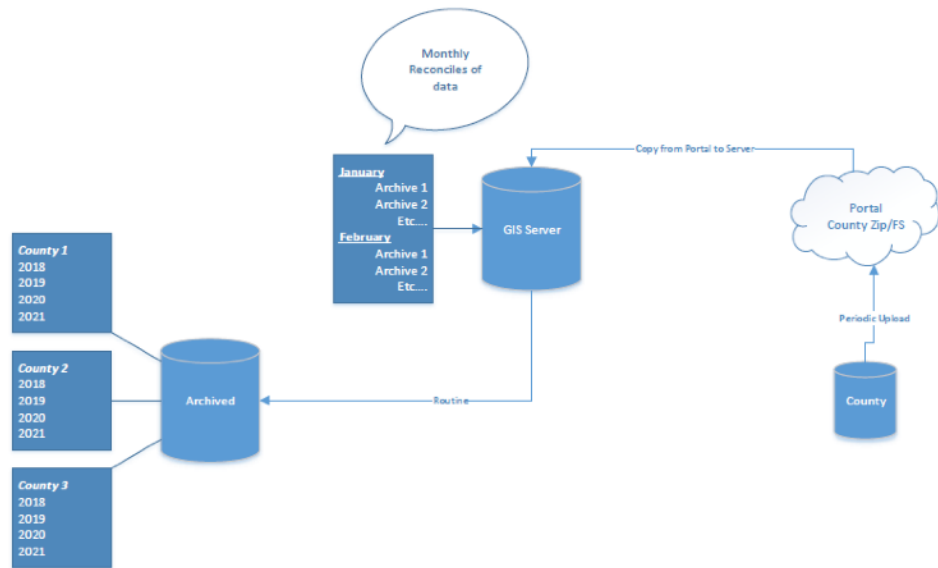

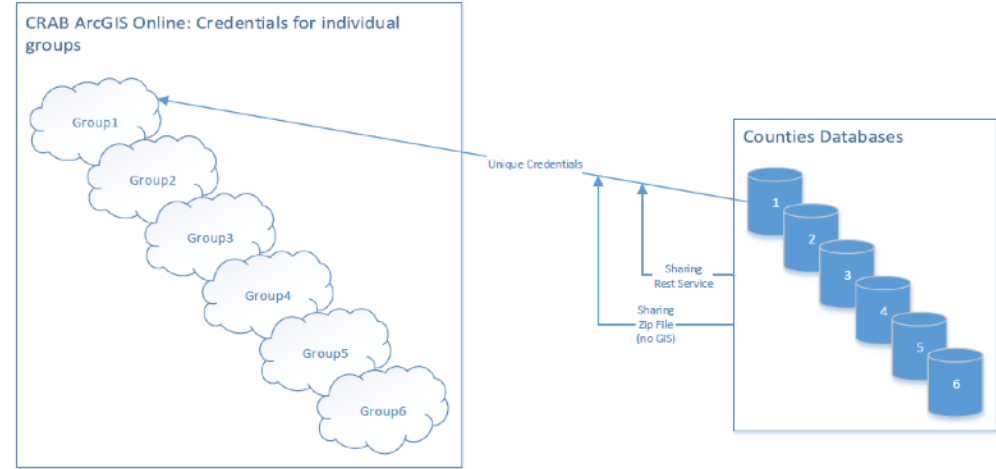

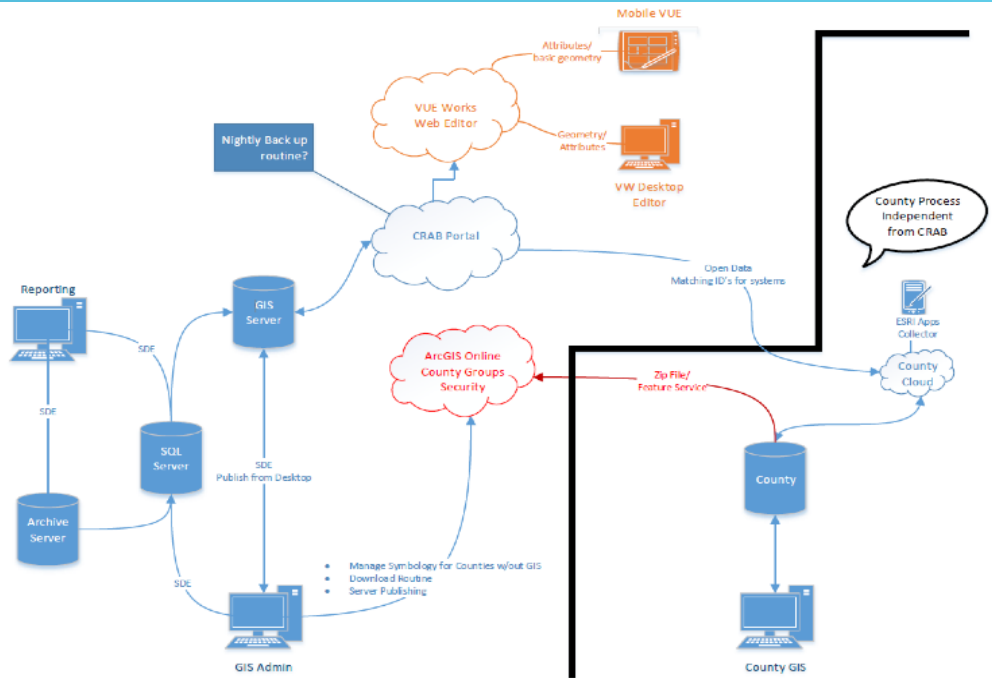

Table 1. MIRE FDE for All Public Roads with AADT ≥ 400 Vehicles per Day.

FDE (MIRE Number) [^]	Definition	
Roadway Segment		
Segment Identifier (12)		
Route Number (8) ⁰		
Route/Street Name (9) ⁰		
Federal-aid/ Route Type (21)*		
Rural/Urban Designation (20)*		
Surface Type (23)		
Begin Point Segment Descriptor (11)		
End Point Segment Descriptor (11)		
Segment Length (13)		
Direction of Inventory (18)	WSDOT (state)	94% +/- 90%
	WSDOT (local)	20% +/- 60%
Functional Class (19)*	CRAB (county)	65% +/- 80%
	Federal	20% +/- 60%
Median Type (54)	Tribal	20% +/- 60%
	Non-DOT (state)	50% +/- 60%
Access Control (22)†		
One/Two-Way Operations (91)*	Indication of whether the segment operates as a one- or two-way roadway.	
Number of Through Lanes (31)*	The total number of through lanes on the segment. This excludes turn lanes and auxiliary lanes.	
Average Annual Daily Traffic (AADT) (79)*	The average number of vehicles passing through a segment from both directions of the mainline route for all days of a specified year.	
AADT Year (80)	Year of AADT.	
Type of Government Ownership (4)*	Type of governmental ownership.	

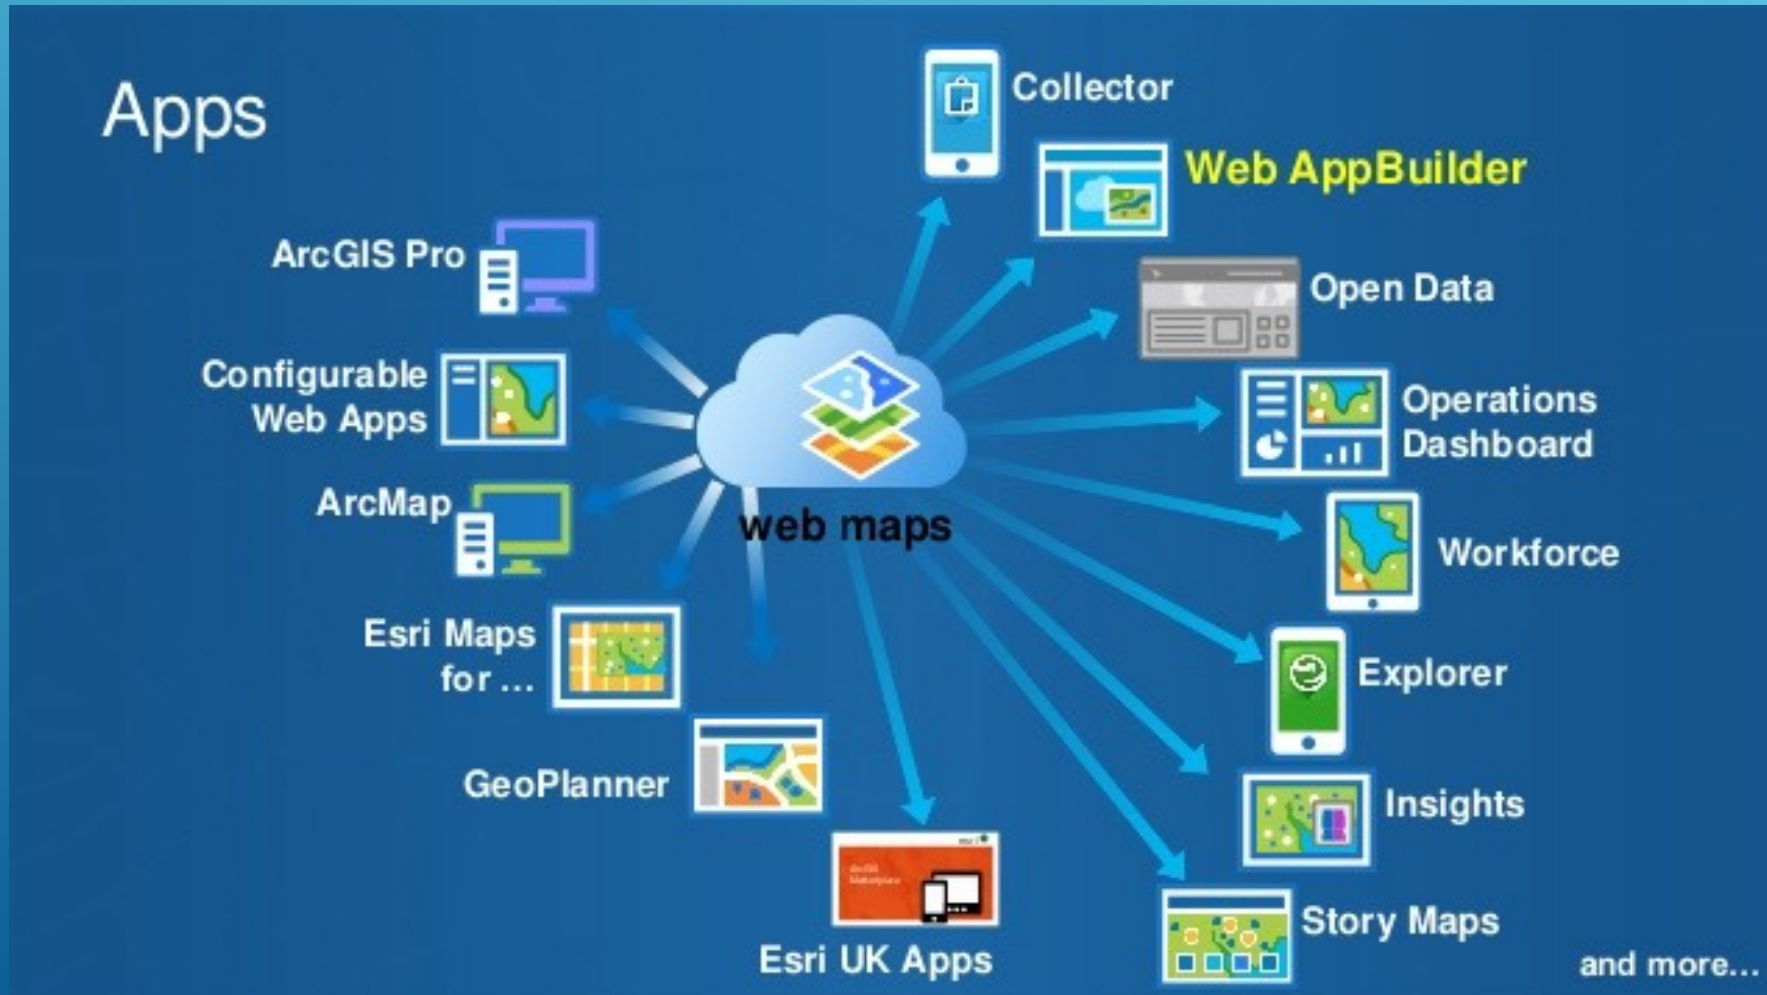

23 CFR, Part 924.11
 "have access to complete collection of the MIRE FDE on all public roads by September 30, 2026."

TIMELINE

PROGRESS UPDATE

- WTSC Grant Awarded for \$400k on May 7, 2018
- Office of Cyber Security (OCS) Security Review initiated
 - May 9, 2018
- Kickoff Meeting for GIS-MO Data Standards Workgroup
 - May 14, 2018
- Sole Source Justification filed with DES on May 16, 2018
- Independent Project Quality Assurance (QA) contractor started May 16, 2018

COMING SOON

- Contract Signed
 - Database Development
 - County Integration
 - County Training
- 
- A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.

QUESTIONS FOR TREATS

Q: What does Esri acronym stand for?

A: _____

Q: What does GIS stand for?

A: _____

Q: What does Lidar Stand for?

A: _____

Q: What is the Most Important Road Asset?

A: _____
